## SERIOUSLY WOUNDED

Young Man Accidentally Shoots Himself With .22-Calibre Rifle.

Provo, Sept. 24.-George Duke, the 20-year-old son of George Duke, shot himself accidentally with a .22 calibre rifle yesterday afternoon at his father's Mrs. Charles Brown Sunday, Sept. 18. ranch house in the south fork of Provo canyon. He had just arrived from at the home of Mr. and Mrs. Adolph Provo and was taking the rifle, which he did not think was loaded, from a Short, on Atwood street.

A meeting will be held bundle of bedding, when a cartridge was exploded, the ball striking him in the groin and ranging upwards. Mr. Duke was brought to Provo and an examination made by Drs. Robison and Aird, who could not satisfactorily lo-cate the bullet. The patient was taken to Salt Lake today in order to attempt is thought the ball is located some-where in the back, and the opinion of the doctors is that the case will not

### BURGLARS MAKE WATER HAUL. Wreck the Wells-Fargo Safe at Mt. Pleasant.

Mt. Pleasant, Sept. 23.—The D. & R. depot in this city was entered by burglars last evening and Wells, Far-go & Co.'s safe was opened by giant powder, robbery being the purpose. No money or valuables of any kind were in the safe and nothing in the room able one.

was touched. Entrance was gained to the building by way of the express room. The key to this room was in the outside door and was turned by the use of nippers. door leading to the office was not ed. The combination of the safe was first cut off with a chisel, but for some reason the safe could not be opened then and it became necessar to use the giant. For this purpose half-inch hole was drilled through th outside lining of the door just over the combination knob and the powder inserted. The charge was a good one and blew the door into fragments. small tin box containing a few mining deeds and other private papers Agent Greene was taken and so far has not been found. The contents of the box are of no value, however, to any person other than the owner. Aside from this nothing was taken from the safe. Some of the drawers of the writing desk were searched, but as there was nothing in them others livered express packages were in the room, but none of them were molested. The chisel and drill and a quantity of giant powder, fuse and caps were found lying around the room.

There is not the slightest clue as to identity of the burglars, where they came from or whither they went The general supposition seems to be that there is an organized band working through this part of the state, and that this robbery and the one at Manti this week were deeds committed by them. This work was evidently done by hands experienced in the business the express company has been blown open, and the agent has learned that it is not safe to leave any valuables in it, while he is out of the office, so this time it was empty.

### DEATH WAS INSTANTANEOUS. N. C. Sorensen of Koosharem Thrown

From Wagon Crushing His Skull. Richfield, Sept. 24.-N. C. Sorensen of Koosharem met with an accidental and sudden death near Redmond Thursday ld were riding in a wagon, when the team became frightened at something and started to run away. Mr. Sorensen could not control the horses and was brown from the seat of the wagon, falling out and in front of one of the ore wheels. The wheel passed over his head, crushing his skull and undoubtedly causing instant death. The w managed to stay with his seat in the wagon and was unburt. Some parties saw the affair and ran and caught the team. They then hastened to the elp could have availed him. He was dead when picked up.

The body was taken to Glenwood and his family in Koosharem and relatives re notified of the affair. People from this place took the corpse home yester-

Harriman System to Alter Enent of the Highland Boy smelter, has tirely Present Method of Handling Traffic Here.

It is understood that the changes proposed by the Harriman roads in their Ogden trackage and yard facilities will be so extensive as to change entirely the present method of handling traffic. While the plans have not yet heen completely worked out, it is said that one alteration which appears reasonably certain to be made is a removal of the freight depots to some other locality. The yards as at present constructed were made with a view of convenience for the various separate systems.
